Hospitality

We are committed to the importance of strong design, lasting quality and exceptional service to our customers. We take much of our inspiration from nature, adopting the belief that a strong connection to nature plays an integral part of well being. A combination of craft and sophisticated sensibility is infused throughout our designs, allowing us to offer beautiful products that are durable and can withstand heavy-use.

We believe expression is fundamental. Visual expression is an important part of the hospitality experience. Make a stay memorable through the senses. Our furniture is tactile. Our capabilities allow us to easily customize our standard product, or create completely custom pieces. All of it is made in our factory in Michigan.

# Lounge

We offer a versatile range in lounge seating options that span many eras and aesthetics. Pictured clockwise: Vancouver 2 Lounge, Bench, Sofa, and Whistler Modular, Sofa and Lounge.

Exemplary quality and craftsmanship. All product made in Michigan.

The Vancouver 2 Lounge Collection is also offered with wood side panels, plain or with a pattern. Pictured at top is our Interlock; bottom is our Sullivan pattern. Add patterning on wood instead of the textile. A beautiful treatment for any interior.

Nature is a big inspiration to our design. Here is an example of a Dahlia pattern, inspired from our team member's grandmother's garden.

Ode Wall Panels are finely crafted wood wall panels that make a truly unique, human-centered architectural element connecting people to their spaces in a natural, timeless way, generating the feeling of well-being that comes from the use of organic materials to create beautiful surroundings. Instead of wall paper, consider beautiful wall panels instead.
