Higher Ed

# tradition-modern

We are committed to the importance of strong design, lasting quality and exceptional service to our customers. We take much of our inspiration from nature, adopting the belief that a strong connection to nature plays an integral part of well being. A combination of craft and sophisticated sensibility is infused throughout our designs, allowing us to offer beautiful products that are durable and can withstand heavy-use.

Like colleges and universities, we value quality which is why we design and manufacture furniture that is timeless and sustainable. We also believe expression is fundamental. We value an offering that allows higher education the opportunity to create a unique sense of place, one that separates them from the rest.

Jasper (left) and Thom (below) are organically shaped screens for defining creative, collaborative or individual work spaces. Offered in writable surfaces or colorful ImPrinted designs and with caster option.

# Supporting your non-traditional student

A parent can now study with less stress, knowing that their child is lovingly safe and secure, with the assurance that they are less than an arm's length away, with these inclusively supportive units. An engaging space for both student parent or caregiver and child. Available in single- or double-faced units. Each workstation includes a wire chase, PVC-free vinyl mat, mirror and Learning Panel(s). Pictured at bottom (l-r): PLAY Cart (a mobile option), Family Workstation, Fairleid Parent+Child Carrel (taller back and side panels).

# Learning & Gathering

The Whistler Collection pictured below is comprised of numerous models: lounge, settee, sofa, modular, bench and ottoman all available in six leg styles. Also pictured Lake Lounge.

# Learning & Gathering

The Whistler Modular provides numerous seating configurations. Create large or small areas of articulated seating, whether working collaboratively or independently. Power is available in lounge or table. At right are our Whistler Ottomans and Whiteboard Table with writable surface and casters.

# Learning & Gathering

Our furniture offering is broad. Here are some more modern pieces for those interiors requiring that look. Pictured: Puddle Stool, Plover Occasional Table, Plover Lounge and Lake Bench.

# Learning & Gathering

Adapting our furniture to meet interior space solutions is something we often do. Above is a custom Marseilles Lounge with Ode Screens to creating privacy that add a beautiful accent to the area. We constructed these in ash, per the interior designer's specification, offering a soft coloration and grain. Pictured right is our Whistler Sofa with tapered solid wood leg.

# Learning & Gathering — Custom Solutions

The architect, Marble Fairbanks, was looking for a soft seating solution that would not only fit the large scale gathering areas at Hunter College, but would also tie in with the interior's slanting accents depicted in the walls, ceiling and casework. Combining Marble Fairbank's drawing and our extensive knowledge of soft seating construction, we fabricated these expansive custom lounges and ottomans as well as beautifully executing seating for the built-in millwork portion.

# Study in Traditional Settings

Some colleges and universities want to maintain a more venerable and traditional styling in their interiors. We offer numerous options that fit that aesthetic. Pictured here are some interiors exemplifying our love of wood and craft and tradition. Below: Algonquin Lounge Collection with Kestrel Chairs. Right: Trestle Base Tables with Kestrel Chairs.

# Study

The Eisenhower Chair offers a mid-century option. Available in laminate and maple shells, with or without an upholstered seat pad.

# Flexible Collaborative Spaces

The ability to move is important in all learning settings, that is why most of our furniture can be specified with casters. Tables, chairs as well as soft seating. Pictured: Flick Task Chair with upholstered seat pad, Finn Table, Mady Task Chair and Roxy Flip and Nest Tables.

# Benching Workspaces

To prevent a forest of legs, our Teraine Table sports a 96" span. Rugged yet visually light, the table is offered in many styling options, as pictured here, with and without dividers.

# Independent Study Spaces — Custom Solutions

Pictured is a maze of study nooks we made for the University of Akron. Our Whistler Lounge fit into each nook offering a comfortable soft seating solution for students while studying. Tables were equipped with power to plug in laptop or phone.

# Dining Halls

# Dining Halls

Our Flick Chairs are a perfect solution for dining or meeting halls. They stack 10 high and are super heavy duty. The Flick also available in bar and counter seat heights. An ImPrinted option creates an opportunity for a college specific expression.
